

Singaporean Math Summer Startup Seminar

June 18-19, Wellesley, Massachusetts

Introduction to Singaporean math teaching

Singapore's elementary math curriculum is advanced and challenging. Come to Tenacre School in Wellesley, MA this summer for a two-day seminar that will provide you with the foundation you need to effectively teach this world-class math curriculum. By the end of the workshop, you will:

- **Understand** theory and research behind the curriculum
- **Practice** unique strategies and manipulatives for teaching place value
- **Understand** mental math and number sense strategies commonly found in the curriculum
- **Develop** lesson planning strategies and fluency in bar modeling, a Singaporean teaching strategy for word problems

Who should attend? Public and independent school teachers K-6, math specialists, administrators, current or future users of either the Math in Focus or Primary Mathematics textbook series

When: June 18-19, 2018

Where: Tenacre School, Wellesley, MA

Time: 8:30 am - 3:00 pm

Cost: \$500 total for two days; \$400 earlybird special! (register by March 30)

Questions: Visit elementarymathmentor.com or Email Dr. Mahoney directly at kmoho@me.com

Register by mail using a check and the included form

About the Presenter

An elementary math teacher for over 25 years, Dr. Kevin Mahoney implemented Singapore's elementary math curriculum at Tenacre School in 2009. In 2012, Dr. Mahoney became the first American to earn a doctorate investigating the effects of Singaporean teaching strategies on American students. He consults with schools nationally as well as in Canada, Europe and India training faculty and helping schools effectively implement mathematics curriculum and instruction. Dr. Mahoney serves as Math Curriculum Coordinator at the Tenacre School in Wellesley, MA.
